

## Meeting teaching and training needs...

CPD4 Health Innovation is developing an exciting new programme of CPD courses for the health sector. The content of these courses is being informed through a range of events which draw together individuals from academia, clinical settings and industry, to discuss skill development needs in the sector.

Along with identifying and delivering courses to meet identified needs, CPD4 Health Innovation is also keen to harness courses that are already available, but which would be of greater use to those outside the academic arena if they were available in a shorter, more intensive format than traditional learning routes currently offer.

For further information, please see

**CPD Master Class**  
**29<sup>th</sup> January 2009**

## Assistive Technologies

Assistive technologies are playing an increasingly important role in the care of older and disabled people. This will continue as a result of an ageing population, the desires of older and disabled people for greater independence and quality of life, and the trend towards self-care.

The Assistive Technologies master class has been designed to provide an insight into how technology is used to support care now and where this sector is likely to develop in the future. It will bring together a range of health and care practitioners, academics and industry representatives to share their knowledge and expertise.

**for Health Technology**

Master Class  
29<sup>th</sup> January 2009  
Leopold Hotel, Sheffield

## Assistive Technologies

The resources of health and care systems are under increasing strain. Enhanced access to Assistive Technology is seen as a cost-effective means of maintaining the independence, health and well-being of a growing ageing population. Assistive Technologies offer a way of delivering many aspects of care and may provide the solution for health and care provision in the future.

The Assistive Technology (AT) field is vast and complex. It ranges from simple devices to help a person's mobility through to the remote health monitoring of a patient with a long term condition. As well as delivering a general introduction to the technology and its application, the master class has been carefully designed to inform about the issues related to implementation and future directions.

### What's in it for me?

- Gain an awareness about the use of assistive technologies
- Understand the issues associated with its service delivery
- Become informed of the commercial aspects of Assistive Technology market
- Acquire an insight to the future of this fast moving sector

***This event is funded by WRHIP and Yorkshire Forward and there is no charge to participants from within the Yorkshire and Humber Region.***

## PROGRAMME

09.00	<b>Registration</b>
09.30	<b>Welcome and Introduction</b> <i>Elaine McNichol, Health Innovation Fellow in Education and Training</i> <i>White Rose Health Innovation Partnership</i>
09.35	<b>Context/Overview</b> <i>Tony Warnes, Professor of Social Gerontology</i> <i>Sheffield Institute for Studies on Ageing, University of Sheffield</i>
09.45	<b>Existing Assistive Technology from a service delivery perspective</b> <i>Simon Judge and Zoë Robertson, AT Team</i> <i>Barnsley Hospital NHS Foundation Trust</i>
10.30	<b>Guest Speaker - Keren Down</b> <i>Foundation for Assistive Technology</i>
11.00	Coffee Break
11.20	<b>Devices for Dignity</b> <i>Zoë Robertson, Devices for Dignity</i> <i>Peter Cudd</i> <i>Sheffield University</i>
11.45	<b>Research Design and manufacturing: meeting the needs of the customer and still returning a profit</b> <i>Peter O'Neill,</i> <i>Madhouse Software Productions Ltd</i>
12.15	<b>Guest Speaker - Kevin Alderson</b> <i>Public Sector Policy Director</i> <i>Tunstall</i>
12.45	Lunch
13.45	<b>Telehealth developments: opportunities and challenges</b> <i>Dr Simon Brownsell,</i> <i>Sheffield Centre Health Related Research.</i>
14.15	<b>Heart failure and telecare</b> <i>Hazel Aldred, Research Nurse</i> <i>Barnsley Hospital NHS Foundation Trust</i>
14.30	<b>Delivering speech and language at a distance</b> <i>Becky Palmer, Research Speech &amp; Language Therapist</i> <i>Sheffield University</i>
15.00	Tea
15.15	<b>Guest Speaker - Julie Vickerman</b> <i>Service user perspective</i> <i>Disabled Living Foundation</i>
15.45	<b>Future of Assistive Technology</b> <i>Steve Blackburn,</i> <i>Sheffield University</i>
16.05	<i>Tony Warnes - Summary</i>
16.15	<b>Closing Remarks</b> <i>Elaine McNichol, Health Innovation Fellow in</i> <i>Education and Training</i> <i>White Rose Health Innovation Partnership</i>
16.20	Close
